

## **Instructions to Authors**

**Name of Journal:** Nirma University Journal of Pharmaceutical Sciences (NUJPS)

**Frequency:** Half Yearly.

**Number of articles :** Maximum 25 articles/issue

**Version:** Online and Print Version.

**ISSN Number:** Will be applied after first issue will be released.

### ***Scope of Journal:***

The Nirma University Journal of Pharmaceutical Sciences (NUJPS) will publish two issues yearly, which will publish original research work that significantly improve the scientific knowledge in all the area of Pharmaceutical Sciences i.e. Pharmaceutical Technology, Novel drug delivery systems, Nanotechnology, Biopharmaceutics & Pharmacokinetics, Medicinal Chemistry, Computational Chemistry and Molecular Drug Design, Pharmacognosy and Phytochemistry, Pharmacology, Pharmaceutical Analysis, Pharmacy Practice, Clinical and Hospital Pharmacy, Cell Biology, Genomics and Proteomics, Pharmacogenomics, Bioinformatics and Biotechnology of Pharmaceutical Interest, Pharmaceutical Management, Regulatory affairs, Drug Discovery, Cosmeceuticals and Nutraceuticals etc. The Journal will be focusing on various types of research papers i.e. original research work either as a Full Research Paper or as a Short Communication. Review Articles / Case Studies on a current topic in Pharmaceutical Sciences are also considered for publication by the Journal.

### ***Conflicts of Interest/ Competing Interests :***

All authors of must disclose any and all conflicts of interest they may have with publication of the manuscript or an institution or product that is mentioned in the manuscript and/or is important to the outcome of the study presented. Authors should also disclose conflict of interest with products that compete with those mentioned in their manuscript.

### ***Submission :***

The preferred format of all manuscript is MS Word. Illustrations (figures) and images must be inserted in the manuscript at the position they should appear when published.

### ***Structure of Manuscript and Preparation :***

It is important that the file be saved in the native format of the word processor used. The text should be in single-column format. Keep the layout of the text as simple as possible. Manuscript should be typed, double-spaced on standard-sized – paper (8.5" x 11"). The font should be 2 pt Times New Roman. The title of the paper should be in upper case.

#### Research Articles :

A Research paper typically should include in the following order

Title Page  
Abstract  
Keywords  
Introduction  
Materials and Methods  
Results  
Discussion  
Conclusion  
Acknowledgments (If any)  
References  
Tables and/or Figures  
Appendixes (if necessary)  
Abbreviations (if necessary)

#### **Title Page**

Title page should contain title of the paper in bold face, title case (font size 14), names of the authors in normal face, upper case (font size 12) followed by the address in normal face lower case. The author to whom all correspondence be addressed should be denoted by an asterisk mark. The title should be as short as possible and precisely indicate the nature of the work in the communication. Names of the authors should appear as initials followed by surnames. At the bottom left corner of the title page, please mention “\*Address For correspondence” and provide a functional e-mail address. Address of the corresponding author to whom all correspondence may be sent should be given only if it is different from the address already given under authors' names.

#### **Abstract**

A brief summary of the research should be given. The limit is 250 Words.

#### **Key words**

Immediately after the abstract, provide a maximum of 6 keywords, using American spelling and nomenclature, and avoiding general and plural terms and multiple concepts (avoid, for example, "and", "of"). Abbreviations which are firmly established can be used. These keywords will be used for indexing purposes.

#### **Introduction**

Description of the research area, pertinent background information, and the hypotheses tested in the study should be included under this section. The introduction should provide sufficient background information. Introduction should also include the specific aims of the project along with a rationale for the specific experiments and other work performed. Authors are instructed to avoid give detailed literature review.

#### **Materials and Methods**

This section should be structured in such a way so as to enable the work to be reproduced. Methods already published should be indicated by a reference : only relevant modifications should be described.

Please include the company sources for all uncommon reagents (kits, drugs, etc). The statistical tool used to analyse the data should be mentioned. All procedures involving experimental animals or human subjects must accompany with statement on necessary ethical approval from appropriate ethics committee.

#### **Results**

Results should be clear and concise. This section may each be divided by subheadings if required. Do not insert any table/figure into the text.

### **Discussion / Conclusion**

The results should be co-related with the available literature in the field. This should explore the significance of the results of the work without repetition.

### **Tables and Figures**

Attach a separate file for the tables. Number tables with roman numerals consecutively in accordance with their appearance in the text. Provide short self-explanatory heading to each table and footnotes for abbreviations and other information. Do not repeat the same information in table and figures.

All the figures should be submitted a separate file and do not insert the figures in the word file. Figures should be supplied in or bitmap formats (Photoshop, TIFF, GIF, JPEG, Etc.) with 300dpi resolution. The figure legends should be included in the manuscript file after the references. Abbreviations if any should also be given in the legends.

### **References**

#### *Citation in text*

All the references should be numbered consecutively in the order in which appears first in the manuscript. They should be superscripted. Ensure that each and every reference is cited. Unpublished data and personal communications should not be included as reference; however articles in press may be cited.

#### *Reference Style*

### **Review Articles:**

It is expected that these articles would be written by individuals who have done substantial work on the subject or are considered experts in the field. A short summary of the work done by the contributor(s) in the field of review should accompany the manuscript.

The prescribed word count is up to 3000 words excluding tables, references and abstract. The manuscript may have about 90 references. The manuscript should have an unstructured Abstract (250 words) representing an accurate summary of the article. The section titles would depend upon the topic reviewed. Authors submitting review article should include a section describing the methods used for locating, selecting, extracting, and synthesizing data. These methods should also be summarized in the abstract.

The journal expects the contributors to give post-publication updates on the subject of review. The update should be brief, covering the advances in the field after the publication of the article and should be sent as a letter to editor, as and when major development occurs in the field.

### **Submission of Manuscript**

All manuscripts (must be in English and in MS Word format) and should be submitted via our online system or through e-mail at [editor.nujps@nirmauni.ac.in](mailto:editor.nujps@nirmauni.ac.in) as an attachment for quick evaluation.

### **Copyright and Permission**

After acceptance of the manuscript author and co-authors has to submit that the manuscript has not been published previously and is not under consideration for publication elsewhere. Authors would be required to sign a CTA (Copyright Transfer Agreement) form (to be supplied by the Editor) transferring copyright before the manuscript can be published.
